## VERSE 1

Can't kick your addiction  
Pharmaceutical fiction  
Check out my prediction

*(They're gonna put you on the drug!)*

Blood sugar though the roof  
Got you acting like a goof  
You know what they gonna do

Now you lack ambition  
Got a bad disposition  
Time to see a physician?

IRS gonna bill us  
CIA gonna kill us  
What you talkin bout Willis?

## VERSE 2

Don't believe in Evolution  
Can't recite the Constitution  
Want to start a revolution?

What you think you're Ferris Bueller  
Sayin school is for losers  
I got a tip for ya cruiser

So you failed geometry  
Hate Beethoven symphony  
Life just ain't your cup of tea

Now you want to be a jock  
Like a night in Bangkok  
Talk the talk and walk the walk

## VERSE 3

Ya wanna go Bruce Jenner  
Swap a Barbie for your Kenner  
You might think you're a winner, but

Take a ride on a train  
Aim a laser at a plane  
Hearing voices in your brain?

So you had a little drama  
Acting like a prima-donna  
Then you voted for Obama

Got a brother in Iraq  
And your sister's selling crack  
Your daddy don't know Jack
